18.3.2015 – at Blockupy Frankfurt

## Protest against the Troika and austerity politics

The blackmail against the new Greek government by the ECB and the German government clearly shows the significance of the Blockupy protest on this day of the ECB opening on March 18th and at this place in Frankfurt with the new ECB headquarter. It is the ECB which enforces austerity politics and the German minister of finance who is stirring this dynamic.

Whether in Paris or Athens, in Rome or Copenhagen, in Berlin or Lübeck, thousands of people from all over Europe and Germany are saying, »Our time to act is now – solidarity with the people in Greece – against the extortion by the ECB!«

DIE LINKE. im Bundestag (the LEFT PARTY in the German Bundestag) will be present in Frankfurt on these days of protest again as in the last years.

Can we understand the events in Greece as a starting point for a resurgence of left European politics? Which challenges are we facing as left forces in Europe, which tasks are laying ahead, especially for DIE LINKE. in the German Bundestag? Are there common demands we want to develop (e.g. a debt auditing conference) and enforce? Where should we start to intervene to stop the extortion by the Troika and German government on the one hand, what should we do to advance a real change of politics in and for Europe on the other hand?
